Our engineers and technical team are highly qualified to offer the client with the best solution to meet their requirements.

Our Vision:

Every fire safety decision is potentially a matter of life & death that is why it is so critical to make sure you are working with the best equipment & services available.

Mission Statement:

Provide appropriate, efficient and cost effective solutions and Quality Equipment in the field of Fire Fighting & Safety to our customers supported by installation of Equipment & Training and maintenance.

What is Fire Safety?

Fire safety refers to precautions that are taken to prevent or reduce the likelihood of a **fire** that may result in death, injury, or property damage, alert those in a structure to the presence of an uncontrolled fire in the event one occurs, better enable those threatened by a fire to survive in and evacuate from affected areas, or to reduce the damage caused by a fire. Fire safety measures include those that are planned during the **construction** of a building or implemented in structures that are already standing, and those that are taught to occupants of the building.

HSE POLICY:

Our corporate policy is to work in such a manner as to prevent personal injury, loss/damage to the property or environment. Safety is the utmost priority and all our employees from executive management to common workers are responsible in achieving our THREE ZERO TARGETS:

ZERO ACCIDENT.

ZERO PERSONAL INJURY.

ZERO PROPERTY LOSS OR DAMAGE TO THE ENVIRONMENT.

We at (Gaco) are geared to abide by this policy and make Health, Safety and Environmental performance a priority in our routine work.
